

INVEST IN THE FUTURE

Buy an element and be a part of the permanent Donor Periodic table!

DONOR PERIODIC TABLE

A permanent granite periodic table will be set into the sidewalk in front of the new Chemistry Building. The periodic table will be a permanent feature of the new building and should soon become a landmark on campus. Donors can 'buy' an element, then choose text to be engraved on their element. We hope many people will find this to be an exciting and fun way to donate to the department. Proceeds will go towards new instrumentation.

OTHER NAMING OPPORTUNITIES AND THE NEW DONOR WALL

There are many other naming opportunities in the new building, ranging from individual rooms of various sizes to the entire building. Donations may take many forms, including planned giving. Major donors will be included on the department's new Donor Wall. The Donor Wall, raised glass against a backdrop of granite immediately inside the main entrance, will be the centerpiece of the public two-story atrium area.

Call the department at (940) 565-3515 for details, or visit www.chem.unt.edu/buyanelement

Name _____

Address _____

City _____ **State** _____ **ZIP** _____

Phone () _____

E-mail _____

Tax-deductible contribution of \$ _____

(\$5000 per element, may be paid in two payments. Second payment requested within a year.)

For the following element(s): _____

(See www.chem.unt.edu/buyanelement or call (940) 565-3515 for elements still available)

Text to be engraved on element: (max 3 lines, approx. 16 characters per line)

Make checks payable to UNT Chemistry Department and note Donor Periodic Table and the element chosen on the memo line. Mail check with this form to:

University of North Texas, Department of Chemistry
P.O. Box 305070
Denton, TX 76203-5070.

For credit card contributions,
please call Ann at (940) 565-3692
or see <https://home.unt.edu/development/creditcardform.html>
